

American Nuclear Society

Application for funding for the Student Conference 2010

Ann Arbor, MI April 8th – 11th, 2009

Application due **Friday, Nov. 27 at 5:00 pm** to the ANS mailbox in NUCL 115

Name: _____

Email: _____

Intention (Please Circle One)

Presenting Research

Not Presenting Research

Researchers:

Please recognize that this application is a first step to potentially acquiring funding from Purdue ANS to go to the ANS Student Conference in April. In addition to having this paper signed, the student will have to be a member in good standing with Purdue ANS (having completed their required Nuke Week hours and Outreach events). The student is also required to submit a copy of their abstract to Purdue ANS one week before the abstract is due to ANS UM. Purdue ANS, along with the School of NE, will do their best to fund all researchers, but no guarantee is given. Professors must sign off on this paper to both show their support and recognize that this **funding is not guaranteed**. If more details are required on the method being used to determine who obtains funding, please contact Jason Young (young14@purdue.edu).

Professor Name: _____ Professor Signature: _____ Date: _____

Student Name: _____ Student Signature: _____ Date: _____

Non-Researchers:

Please recognize that this application is the only step required to obtain funding for the ANS Student Conference in April. In addition to signing this application, please **attach a short letter (~ 300 words, over or under is fine) explaining why you wish to go to the ANS Student Conference**. Non-researchers are only funded by Purdue ANS and will only be funded after all research applications are reviewed.
