User's Guide for MSEE 184.

1. During scheduled class times and help sessions (**red** sections in the schedule), students who are registered for that class have priority. If there are free workstations, other students may come in, but have to adhere to the following guidelines:
 - a. Please come in through the BACK DOOR;
 - b. Please sit in the back of the lab;
 - c. Please be VERY QUIET inside the lab.These rules are especially important for EE 695A (MWF 9:30-10:30) and EE 595T (TR 3-4:30), which are lecture classes.
2. During TA's office hours and staff meetings (**yellow** sections in the schedule), the first two rows are reserved for the TA's and their students; the rest are free to be used by all VISE students.
3. The rest of the schedule is open to all VISE students. The lab is open 24 hours a day.

Please direct all questions about this schedule to Prof. I. Pollak at ipollak@ecn.purdue.edu .
