

**International Phytotechnologies Conference**  
**April 20-22, 2005**  
**Information for Prospective Exhibitors**

The Environmental Protection Agency, with assistance from the Midwest Hazardous Substance Research Center, is hosting an **International Phytotechnologies Conference** April 20-22 at the Hyatt Regency Atlanta. The International Phytotechnologies Conference is the premier conference focusing on applications of plant-based technologies. The conference will provide a comprehensive look at advanced phytotechnology issues through presentations, workshops, poster sessions, and roundtable discussions. Sponsorship opportunities and exhibition space is available to organizations that have a commercial interest in the use of plant-based technologies.

The most recent conference in 2003 attracted over 300 attendees, including representation from state and federal agencies, academia, and industries in the areas of petroleum production, chemical processing, transportation, and other utilities. Approximately 40 internationally recognized speakers from seven countries will be speaking at the three day conference. Presentation and discussion topics include measurement techniques for assessing a project's progress; phytotechnologies for use in developing economies; eco-restoration or habitat creation with remediation; fate or transport of contaminants through plants and associated eco-risk; case studies of successful applications; and case studies that illustrate regulatory process for evaluating phytoremediation projects.

The exhibit area is centrally located to maximize contact and exposure to interested conference participants and potential customers. Exhibits will be showcased during the evening receptions on April 20-21. In addition, traffic flow to and from coffee breaks on all three days will be directed past the exhibit booths.

The cost to be a sponsor of the International Phytotechnologies conference is \$2,000, and includes:

- A 10' x 10' exhibit space,
- recognition in the conference program,
- listing in the exhibitor directory,
- a sign listing your company name and logo, and
- an advance list of preregistered attendees.

If you would like to sponsor the conference but not host an exhibit, the cost is \$1,500 with all benefits listed above minus the exhibit space. The cost of exhibit space without sponsorship is \$900.

Included with this letter is a sponsorship/exhibitor application. Please complete the application and return it to the address indicated. If you have any questions, please feel free to contact me at (765) 496-2436 or email to [jradin@purdue.edu](mailto:jradin@purdue.edu). Additional information can be found at [www.mhsrc.org](http://www.mhsrc.org) and the conference web site at <http://www.cluin.org/phytoconf/>.

Sincerely,

Jordan K. Radin, P.E.  
Program Manager
