

## **HOMEWORK GUIDELINES FOR PROGRAMMING ASSIGNMENTS**

How to turn in your programming assignments:

Store the entire project in a folder called "Your\_Last\_Name" which will contain ALL the files you wrote to create and run the application (Important: include the workspace file, \*.vcw). Use Winzip to compress this folder, name it "Your\_Last\_Name.zip" and email it to [mobility@ecn.purdue.edu](mailto:mobility@ecn.purdue.edu). The subject of the email should be: EE495M HOMEWORK 1, if you are turning in the first homework.

Late homework solutions cannot be accepted.

Scoring will be:

- 2 points: a correct solution
- 1 point: a reasonable attempt made
- 0 point: no significant effort apparent
